RESEARCH CENTER

Rural Hospital Bypass and Community Health Needs in Nevada – 2019 to 2021 is a publication from the Nevada Health Workforce Research Center in the Office of Statewide Initiatives at the University of Nevada, Reno School of Medicine.

The mission of the Office of Statewide Initiatives is to improve the health of Nevadans through statewide engagement, education, and research.

The purpose of the Nevada Health Workforce Research Center is to improve the collection and analysis of data on health workforce supply and demand to enhance health workforce planning and development in Nevada.

Nevada Rural Hospital Service Areas – 2023

Source: Office of Statewide Initiatives (2023)

Section One: Rural and Frontier Hospitals in Nevada

Banner Churchill Community Hospital

Highlights:

- Between 2019 and 2021, there were 8,639 inpatient discharges for residents from the four zip codes identified as the hospital service area for Banner Churchill Community Hospital (BCCH) in Fallon. Of these 8,639 discharges, 3,713 received care at Banner Churchill Community Hospital (43.0%), while 4,926 (57.0%) bypassed BCCH for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Fallon and outlying areas: 89310, 89406, 89407, 89496.
- During the same time period, there were 122,969 outpatient encounters and visits to Banner Churchill Community Hospital and its associated clinics from residents in the hospital's service area. Of these 122,969 outpatient visits and encounters, 76,978 received care at BCCH and its clinics (62.6%), while 45,991 (37.4%) bypasses BCCH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 41,434 hospital emergency room visits from residents of BCCH's service area. Of these 41,434 visits, 37,755 received care at the BCCH emergency department (91.1%), while 3,679 (8.9%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Battle Mountain General Hospital

Highlights:

- Between 2019 and 2021, there were 1,320 inpatient discharges for residents from the two zip codes identified as the hospital service area for Battle Mountain General Hospital (BMGH) in Battle Mountain. Of these 1,320 discharges, 108 received care at Battle Mountain General Hospital (8.2%), while 1,212 (91.8%) bypassed BMGH for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Battle Mountain and outlying areas: 89310, and 89820.
- During the same time period, there were 30,893 outpatient encounters and visits to Battle Mountain General Hospital and its associated clinics from residents in the hospital's service area. Of these 30,893 outpatient visits and encounters, 25,205 received care at BMGH and its clinics (81.6%), while 5,688 (18.4%) bypasses BMGH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 5,796 hospital emergency room visits from residents of BMGH's service area. Of these 5,796 visits, 4,625 received care at the BMGH emergency department (79.8%), while 1,171 (20.2%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
- This Battle Mountain General Hospital report includes inpatient and outpatient data for both Nevada and Utah. Utah data are only available in this report through quarter one (Q1) of 2021 for inpatients and outpatients. Bypass estimates for 2021 are partially underestimated due to missing data for Q2, Q3, and Q4.

Boulder City Hospital

Highlights:

- Between 2019 and 2021, there were 5,231 inpatient discharges for residents from the zip code identified as the hospital service area for Boulder City Hospital (BCH) in Boulder City. Of these 5,231 discharges, 460 received care at Boulder City Hospital (8.8%), while 4,771 (91.2%) bypassed BCH for inpatient care in Las Vegas and other acute care hospitals in Nevada and Utah. The hospital's service area includes the following zip code in Boulder City and outlying areas: 89005.
- During the same time period, there were 13,369 outpatient encounters and visits to Boulder City Hospital and its associated clinics from residents in the hospital's service area. Of these 13,369 outpatient visits and encounters, 4,422 received care at BCH and its clinics (33.1%), while 8,947 (66.9%) bypasses BCH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 14,567 hospital emergency room visits from residents of BCH's service area. Of these 14,567 visits, 8,678 received care at the BCH emergency department (59.6%), while 5,889 (40.4%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Carson Valley Medical Center

Highlights:

- Between 2019 and 2021, there were 12,479 inpatient discharges for residents from the ten zip codes identified as the hospital service area for Carson Valley Medical Center (CVMC) in Gardnerville. Of these 12,479 discharges, 1,875 received care at Carson Valley Medical Center (15.0%), while 10,604 (85.0%) bypassed CVMC for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Gardnerville and outlying areas: 89410, 89411, 89413, 89423, 89448, 89449, 89460, 89705, 96107, 96133.
- During the same time period, there were 238,729 outpatient encounters and visits to Carson Valley Medical Center and its associated clinics from residents in the hospital's service area. Of these 122,969 outpatient visits and encounters, 105,193 received care at CVMC and its clinics (44.1%), while 133,536 (55.9%) bypasses CVMC for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 39,689 hospital emergency room visits from residents of CVMC's service area. Of these 39,689 visits, 17,956 received care at the CVMC emergency department (45.2%), while 21,733 (54.8%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Desert View Medical Center

Highlights:

- Between 2019 and 2021, there were 20,176 inpatient discharges for residents from the ten zip codes identified as the hospital service area for Desert View Medical Center (DVMC) in Pahrump. Of these 20,179 discharges, 3,950 received care at Desert View Medical Center (19.6%), while 16,226 (80.4%) bypassed DVMC for inpatient care in Las Vegas, and other acute care hospitals. The hospital's service area includes the following zip codes in Pahrump and outlying areas: 89020, 89022, 89023, 89003, 89041, 89045, 89048, 89049, 89060, and 89061.
- During the same time period, there were 55,986 outpatient encounters and visits to Desert View Medical Center and its associated clinics from residents in the hospital's service area. Of these 55,986 outpatient visits and encounters, 28,915 received care at DVMC and its clinics (51.6%), while 27,071 (48.4%) bypasses DVMC for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 58,090 hospital emergency room visits from residents of DVMC's service area. Of these 58,090 visits, 47,029 received care at the DVMC emergency department (81.0%), while 11,061 (19.0%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Grover C Dils Medical Center

Highlights:

- Between 2019 and 2021, there were 1,268 inpatient discharges for residents from the five zip codes identified as the hospital service area for Grover C Dils Medical Center (GCDMC) in Caliente. Of these 1,268 discharges, 250 received care at Grover C Dils Medical Center (19.7%), while 1,018 (80.3%) bypassed GCDMC for inpatient care in Las Vegas, and other acute care hospitals in Nevada and Utah. The hospital's service area includes the following zip codes in Caliente and outlying areas: 89042, 89001, 89008, 89017, and 89043.
- During the same time period, there were 12,336 outpatient encounters and visits to Grover C Dils Medical Center and its associated clinics from residents in the hospital's service area. Of these 12,336 outpatient visits and encounters, 10,754 received care at GCDMC and its clinics (81.8%), while 1,582 (12.8%) bypasses GCDMC for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 3,438 hospital emergency room visits from residents of GCDMC's service area. Of these 3,438 visits, 2,693 received care at the GCDMC emergency department (81.8%), while 745 (21.7%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
- This Grover C Dils Medical Center report includes inpatient and outpatient data for both Nevada and Utah. Utah data are only available in this report through quarter one (Q1) of 2021 for inpatients and outpatients. Bypass estimates for 2021 are partially underestimated due to missing data for Q2, Q3, and Q4.

Humboldt General Hospital

Highlights:

- Between 2019 and 2021, there were 4,095 inpatient discharges for residents from the five zip codes identified as the hospital service area for Humboldt General Hospital (HGH) in Winnemucca. Of these 4,095 discharges, 1,712 received care at Humboldt General Hospital (41.8%), while 2,383 (58.2%) bypassed HGH for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Winnemucca and outlying areas: 89042, 89001, 89008, 89017, and 89043.
- During the same time period, there were 60,665 outpatient encounters and visits to Humboldt General Hospital and its associated clinics from residents in the hospital's service area. Of these 60,665 outpatient visits and encounters, 44,400 received care at HGH and its clinics (73.2%), while 16,265 (26.8%) bypasses HGH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 12,975 hospital emergency room visits from residents of HGH's service area. Of these 12,975 visits, 11,246 received care at the HGH emergency department (86.7%), while 1,729 (13.3%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
- This Humboldt General Hospital report includes inpatient and outpatient data for both Nevada and Utah. Utah data are only available in this report through quarter one (Q1) of 2021 for inpatients and outpatients. Bypass estimates for 2021 are partially underestimated due to missing data for Q2, Q3, and Q4.

Incline Village Community Hospital

Highlights:

- Between 2019 and 2021, there were 1,063 inpatient discharges for residents from the four zip codes identified as the hospital service area for Incline Village Community Hospital (IVCH) in Incline Village. Of these 1,063 discharges, 9 received care at Incline Village Community Hospital (0.8%), while 1,054 (99.2%) bypassed IVCH for inpatient care in Reno, Carson City, and other acute care hospitals in Nevada and California. The hospital's service area includes the following zip codes in Incline Village and outlying areas: 89402, 89450, 89451, 89452.
- During the same time period, there were 37,083 outpatient encounters and visits to Incline Village Community Hospital and its associated clinics from residents in the hospital's service area. Of these 37,083 outpatient visits and encounters, 26,571 received care at IVCH and its clinics (71.7%), while 10,512 (28.3%) bypasses IVCH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 3,097 hospital emergency room visits from residents of IVCH's service area. Of these 3,097 visits, 1,999 received care at the IVCH emergency department (64.5%), while 1,098 (35.5%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Mesa View Regional Hospital

Highlights:

- Between 2019 and 2021, there were 5,906 inpatient discharges for residents from the three zip codes identified as the hospital service area for Mesa View Regional Hospital (MVRH) in Mesquite. Of these 5,906 discharges, 2,078 received care at Mesa View Regional Hospital (35.1%), while 3,831 (64.9%) bypassed MVRH for inpatient care in Las Vegas, and other acute care hospitals in Nevada and Utah. The hospital's service area includes the following zip codes in Mesquite and outlying areas: 89034, 89027, and 89024.
- During the same time period, there were 74,527 outpatient encounters and visits to Mesa View Regional Hospital and its associated clinics from residents in the hospital's service area. Of these 74,527 outpatient visits and encounters, 67,650 received care at MVRH and its clinics (90.8%), while 6,887 (9.2%) bypasses MVRH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 19,556 hospital emergency room visits from residents of MVRH's service area. Of these 19,556 visits, 18,755 received care at the MVRH emergency department (95.9%), while 801 (4.1%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
- This Mesa View Regional Hospital report includes inpatient and outpatient data for both Nevada and Utah. Utah data are only available in this report through quarter one (Q1) of 2021 for inpatients and outpatients. Bypass estimates for 2021 are partially underestimated due to missing Utah data for Q2, Q3, and Q4.

Mount Grant General Hospital

Highlights:

- Between 2019 and 2021, there were 2,102 inpatient discharges for residents from the four zip codes identified as the hospital service area for Mount Grant General Hospital (MGGH) in Hawthorne. Of these 2,102 discharges, 730 received care at Mount Grant General Hospital (34.7%), while 1,372 (65.3%) bypassed MGGH for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Hawthorne and outlying areas: 89409, 89415, 89420, and 89427.
- During the same time period, there were 29,884 outpatient encounters and visits to Mount Grant General Hospital and its associated clinics from residents in the hospital's service area. Of these 29,884 outpatient visits and encounters, 22,462 received care at MGGH and its clinics (75.2%), while 7,422 (24.8%) bypasses MGGH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 8,282 hospital emergency room visits from residents of MGGH's service area. Of these 8,282 visits, 5,903 received care at the MGGH emergency department (71.3%), while 2,379 (28.7%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Northeastern Nevada Regional Hospital

Highlights:

- Between 2019 and 2021, there were 10,665 inpatient discharges for residents from the 17 zip codes identified as the hospital service area for Northeastern Nevada Regional Hospital (NNRH) in Elko. Of these 10,665 discharges, 5,335 received care at Northeastern Nevada Regional Hospital (50.0%), while 5,335 (50.0%) bypassed NNRH for inpatient care in Reno, Carson City, and other acute care hospitals in Nevada and Utah. The hospital's service area includes the following zip codes in Elko and outlying areas: 89801, 89802, 89803, 89815, 89821, 89822, 89823, 89825, 89826, 89828, 89830, 89831, 89832, 89833, 89834, 89835, and 89883.
- During the same time period, there were 59,941 outpatient encounters and visits to Northeastern Nevada Regional Hospital and its associated clinics from residents in the hospital's service area. Of these 59,941 outpatient visits and encounters, 50,762 received care at NNRH and its clinics (84.7%), while 9,179 (15.3%) bypasses NNRH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 36,231 hospital emergency room visits from residents of NNRH's service area. Of these 36,231 visits, 34,550 received care at the NNRH emergency department (95.4%), while 1,681 (4.6%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
- This Northeastern Nevada Regional Hospital report includes inpatient and outpatient data for both Nevada and Utah. Utah data are only available in this report through quarter one (Q1) of 2021 for inpatients and outpatients. Bypass estimates for 2021 are partially underestimated due to missing data for Q2, Q3, and Q4. and outpatients.
- Bypass estimates for 2021 are partially underestimated due to missing data for Q2, Q3, and Q4.

Pershing General Hospital

Hospital Service Area ZIP Codes: 89418, 89419

Highlights:

- Between 2019 and 2021, there were 1,172 inpatient discharges for residents from the two zip codes identified as the hospital service area for Pershing General Hospital (PGH) in Lovelock. Of these 1,172 discharges, 107 received care at Pershing General Hospital (9.1%), while 1,065 (90.9%) bypassed PGH for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Lovelock and outlying areas: 89418 and 894196.
- During the same time period, there were 39,338 outpatient encounters and visits to Pershing General Hospital and its associated clinics from residents in the hospital's service area. Of these 39,338 outpatient visits and encounters, 31,554 received care at PGH and its clinics (80.3%), while 7,784 (19.8%) bypasses PGH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 5,568 hospital emergency room visits from residents of PGH's service area. Of these 5,568 visits, 4,236 received care at the PGH emergency department (76.1%), while 1,332 (23.9%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

South Lyon Medical Center

Highlights:

- Between 2019 and 2021, there were 3,376 inpatient discharges for residents from the three zip codes identified as the hospital service area for South Lyon Medical Center (SLMC) in Yerington. Of these 3,376 discharges, 210 received care at South Lyon Medical Center (6.2%), while 3,166 (93.8%) bypassed SLMC for inpatient care in Reno, Carson City, and other acute care hospitals. The hospital's service area includes the following zip codes in Yerington and outlying areas: 89430, 89444, and 89447.
- During the same time period, there were 56,914 outpatient encounters and visits to South Lyon Medical Center and its associated clinics from residents in the hospital's service area. Of these 56,914 outpatient visits and encounters, 24,806 received care at SLMC and its clinics (43.6%), while 32,108 (56.4%) bypasses SLMC for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 13,255 hospital emergency room visits from residents of SLMC's service area. Of these 13,255 visits, 7,858 received care at the SLMC emergency department (59.3%), while 5,397 (40.7%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

William Bee Ririe Hospital

Highlights:

- Between 2019 and 2021, there were 2,441 inpatient discharges for residents from the eight zip codes identified as the hospital service area for William Bee Ririe Hospital (WBRH) in Ely. Of these 2,441 discharges, 1,621 received care at William Bee Ririe Hospital (54.0%), while 820 (46.0%) bypassed WBRH for inpatient care in Reno, Carson City, Las Vegas and other acute care hospitals in Nevada and Utah. The hospital's service area includes the following zip codes in Ely and outlying areas: 89301, 89311, 89314, 89315, 89316, 89317, 89318, and 89319.
- During the same time period, there were 52,329 outpatient encounters and visits to William Bee Ririe Hospital and its associated clinics from residents in the hospital's service area. Of these 52,329 outpatient visits and encounters, 49,909 received care at WBRH and its clinics (95.4%), while 2,420 (4.6%) bypasses WBRH for outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 12,607 hospital emergency room visits from residents of WBRH's service area. Of these 12,607 visits, 11,717 received care at the WBRH emergency department (92.9%), while 890 (7.1%) went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
- This William Bee Ririe Hospital report includes inpatient and outpatient data for both Nevada and Utah. Utah data are only available in this report through quarter one (Q1) of 2021 for inpatients and outpatients. Bypass estimates for 2021 are partially underestimated due to missing data for Q2, Q3, and Q4.

**Section Two: Bypass from Rural and Frontier Hospital Districts
Without Hospitals in Nevada**

Fernley Hospital District

Highlights:

- Between 2019 and 2021, there were 7,898 inpatient discharges for residents from the five zip codes identified as the Fernley Hospital District service area which has no hospital. Of these 7,898 discharges, 87.1% received care at Reno hospitals and 12.9% at various hospitals in other acute care hospitals in Nevada. The hospital's service area includes the following zip codes in Fernley and outlying areas: 89405, 89408, 89412, 89424, and 89442.
- During the same time period, there were 98,764 outpatient encounters and visits, of these visits, 69.2% of these encounters and visits received care at Reno hospitals and their associated clinics, 21.9% received care at Banner Churchill Community Hospital and its associated clinics from residents in the hospital's service area. Of these 98,764 outpatient visits and encounters, 8.9% received care at other rural hospitals for outpatient services.
- From 2019 to 2021, there were 21,147 hospital emergency room visits from residents of the Fernley hospital district service area. Of these 21,147 visits, 51.6% received care at the Reno hospitals emergency departments, 31.5% at Banner Churchill Community Hospital, and 16.9% went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Northern Nye County Hospital District

Highlights:

- Between 2019 and 2021, there were 971 inpatient discharges for residents from the three zip codes identified as the Northern Nye County Hospital District service area in Tonopah. Of these 971 discharges, 34.7% received care in Reno hospitals, 8.3% received care at Banner Churchill Community hospital and 57.5% went to Las Vegas and other acute care hospitals in Nevada and Utah. The hospital's service area includes the following zip codes in Tonopah and outlying areas: 89022, 89045, and 89049.
- During the same time period, there were 4,245 outpatient encounters and visits and 22.9% received services at Banner Churchill Community Hospital, 23.8% at Reno hospitals and clinics, 12.4% at Mount Grant General Hospital, and 40.9% received outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 1,931 hospital emergency room visits from residents of Tonopah's service area. Of these 1,931 visits, 26.7% received care at the BCCH emergency department, 22.5% at the MGGH emergency department, 9.7% at Renown Regional, and 5.5% at Desert View Hospital while 35.6% went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).

Silver Springs Hospital District

Highlights:

- Between 2019 and 2021, there were 3,206 inpatient discharges for residents from the one zip code identified as the Silver Springs Hospital District service area in Silver Springs. Of these 3,206 discharges, 1,699 received care at Carson Tahoe Regional Healthcare (53.0%), 30.4% received care at Reno hospitals, and 6.1% received care at Banner Churchill Community Hospital while 10.5% received inpatient care in other acute care hospitals in Nevada. The hospital's service area includes the following zip code in Silver Springs and outlying areas: 89429.
- During the same time period, there were 32,707 outpatient encounters and visits of which 40.0% went to Carson Tahoe Regional Healthcare and its associated clinics, 38.5% received services from Reno hospitals and their associated clinics, 10.7% from Banner Churchill Community Hospital 10.8% received outpatient services in other hospitals and clinics.
- From 2019 to 2021, there were 7,907 hospital emergency room visits from residents of Silver Springs hospital district service area. Of these 7,907 visits, 40.1% received care at the Carson Tabor Regional Healthcare emergency department, 31.4% received services at Banner Churchill Community Hospital, and 23.0% received services at Reno hospital emergency departments.), while 5.5% went to emergency rooms in other hospitals.

Notes:

- Inpatient and outpatient data is presented based on 3M All Patient Refined Diagnosis Related Groups (APR-DRG) codes (follow this [link](#) to view the APR-DRG codebook and methodology), and the emergency department data is presented based on ICD-10-CM primary diagnosis codes (follow this [link](#) to view the emergency diagnosis codebook and this [link](#) for the methodology).
