

REPORTS TO: AGENCY MANAGER

LOCATION: RENO, NEVADA (IN-PERSON, VIRTUAL, HYBRID)

PUBLIC HEALTH VIDEO PRODUCTION INTERN

POSITION SUMMARY:

The Video Production Intern will be a vital member of our team, collaborating closely with the Education and Information Officer to create engaging and informative video content aimed at promoting public health initiatives and resources. This position requires a self-driven individual with a knack for creativity and a passion for using multimedia to convey important messages. The ideal candidate will possess strong video editing skills, a keen eye for visual storytelling, and the ability to take initiative in executing projects from concept to completion.

Compensation:

Unpaid

Key Projects Include:

- Collaborate with the Education and Information Officer to conceptualize, storyboard, and produce video content that aligns with the mission and goals of our organization.
- Take the lead in filming and editing videos, ensuring high-quality production values and adherence to brand guidelines.
- Brainstorm innovative ideas for video projects that effectively communicate complex public health concepts to diverse audiences.
- Assist in managing video production schedules, coordinating shoots, and organizing raw footage.
- Stay up-to-date with industry trends and emerging technologies in video production, incorporating new techniques to enhance the visual appeal and impact of our content.
- Participate in team meetings and contribute creative input to ongoing projects and campaigns.

Essential Position Duties and Responsibilities:

- Access to own video production equipment/software
- Proficiency in video editing software such as Adobe Premiere Pro, Final Cut Pro, or DaVinci Resolve.
- Strong storytelling skills and the ability to translate ideas into compelling visual narratives.
- Detail-oriented with a focus on delivering polished and professional video content.

- Excellent communication and collaboration skills, with the ability to work effectively in a team environment.
- Self-motivated and proactive, with the ability to manage time efficiently and meet deadlines.
- A creative mindset with a passion for exploring new techniques and pushing the boundaries of video production.

Knowledge and Skills:

- Experience with motion graphics and animation software (e.g., Adobe After Effects, Blender).
- Knowledge of sound design principles and proficiency in audio editing software.
- Familiarity with color grading and visual effects techniques to enhance video quality.
- Previous experience creating educational or informational content related to public health or similar fields.

Work Environment:

This position offers a dynamic work environment with opportunities for both remote and in-person collaboration. The Video Production Intern will have the chance to gain hands-on experience in all aspects of video production, from concept development to final delivery. This role provides a unique opportunity to contribute to meaningful projects that support our organization's mission of promoting public health and wellness in Nevada.
